The Brief

Peak II system provides a workstation solution that is
- Cable free
- High performance
- Ergonomic

Delivering on key requirements

- Options
- Flexibility
- Consistency

For shared workspaces and collaborative environments, Peak II system enhances wellbeing while supporting every office layout and design requirement

15 YEARS WARRANTY

We offer a 15-Year No Quibble Warranty, backed by our dedicated Service and Technical Team. We carry stock of all commonly used parts and provide next-day repair service within Auckland.

Telarc. Registered — Environment ISO 14001

Telarc. Registered — Quality ISO 9001

Telarc. Registered — Health & Safety ISO 45001

We are committed to sourcing only high-quality products that meet international standards. We are proud to hold ISO certification for the design, manufacture, and supply of commercial workspace furniture.

FURNITURE TAKE BACK SCHEME

If you're replacing existing products with new ones, we'll collect any furniture on site that can't be reused—and either donate it to charity, resell it, refurbish it for parts, or responsibly recycle the remaining components.

MADE WITH 80% RECYCLED MATERIAL

Our acoustic panels are made using 80% recycled materials, supporting both sustainability and sound performance in the workspace.

Our desk bases are fully recyclable, supporting a more sustainable end-of-life solution for your workspace.

BIFMA

ANSI/BIFMA X5.5-2014 Desk Products

BIFMA sets safety, durability, and sustainability standards to ensure high-quality commercial furniture.

The System

Desk Tops
25-30mm desk tops in Melamine, Veneer, Plywood or high-pressure laminate

Handset
Sleek designer handset with integrated USB A and C Fast charge ports.

Extendable Steel Under Desk Strengthening Frame
Ultimate rigidity whether desk is raised or lowered

Cable Tidy
Catches and conceals all under desk cabling from the desk itself and any desk mounted technology. Unclip and fold down for easy accessibility to under desk power. Also doubles as a small modesty panel

Centre Cable Tray
Includes full cable tray cover to conceal all cables running between desk pods

Cable Umbilical
Conceals all cables running from centre cable tray to underside of desk. Mounted at end of desk pod to prevent conflict with the user's legs

Cable Bridge
Keep cables out of sight when running from one desk pod to the next, and locks pods in line

Partitions
Frame or desk mounted partitions in fabric or acoustic panel

Legs
Heavy duty 140kg rated 3 stage legs, with a motor per leg. Option of Round or Rectangular profile

Adjustable Glides
Keeps desk pods level on uneven floors
